

An anti - beach litter campaign
by Surfers Against Sewage
and supported by O'Neill

RETURN TO OFFENDER

1,981 items of litter were found for every km of beach surveyed in the UK. (Source: MSC) Over 70% of all marine litter is plastics. (Source: MSC) Plastics are long lasting in the marine environment. A plastic bottle can take over 450 years to break down.

What's happening: SAS and pro surfers from across the world will send litter collected from the beach at Thurso back to the companies who produced it with a "stop littering our beaches" message.

Where: WQS O'Neill Highland Open, Thurso **When:** 11am, 25th April - Day 1 of the surf contest
